- Firewall® UVC technology for maintaining water cleanliness with Purity Advanced Pro

Product Details

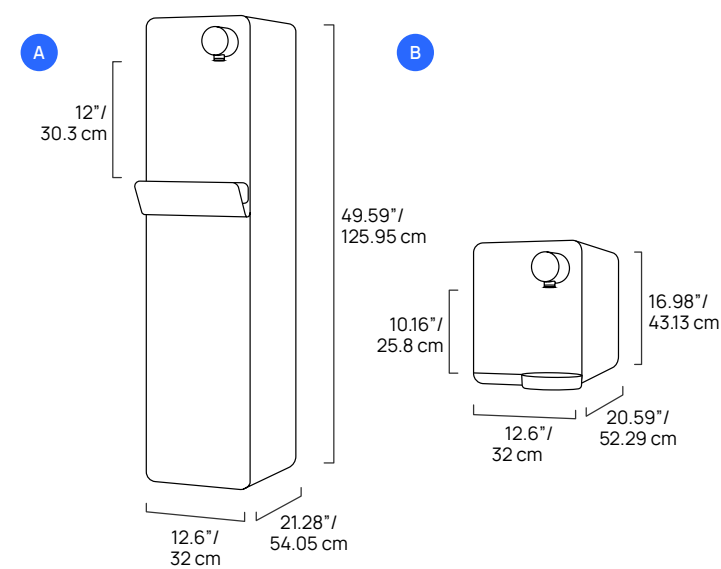

Bring next-level hydration to your workplace with the Purity Advanced Plus. Built for high-traffic environments, this bottlefree cooler delivers great-tasting water whenever it's needed. Dispense effortlessly refreshing cold or hot drinking water through either touchless or touchscreen controls, elevating everyone's hydration experience. This cooler offers BioCote® surface protection to help minimize microbes on frequently touched areas. Powered by C-Sense™ smart monitoring to automatically track water quality, filter life, and overall system performance, the Purity coolers send alerts when maintenance or service is required. Add an extra level of protection of water cleanliness with Firewall® UVC technology available with the Purity Advanced Pro.

Premium Features

- Freshly filtered cold or hot drinking water on-demand
- Easy-to-use touchless or touchscreen display with multilingual user interface
- Large 12" dispensing area perfect for most reusable bottles (Freestanding model)
- State-of-the-art carbon or reverse osmosis filtration reduces lead, forever chemicals, microplastics, and other harmful contaminants
- Advanced hygiene technology with antimicrobial BioCote® surface protection and sophisticated glass front panel
- C-Sense™ technology provides real-time monitoring and automated service alerts, including filter status, maintenance needs, and overall water quality.
- With Purity Advanced Pro, Firewall® UV-C technology maintains water quality and neutralizes potential bacteria at dispense
- Available with cold and ambient filtered drinking water
